HOW THE WATCH TRUST FLEECES THE PUBLIC

Another Example of How the Payne Bill "Decreases" The Tariff on Imported Articles.

WASHINGTON, April 1.—Now come the independent watch manufacturers with a statement to the effect that in addition to all the other "jokers" in the Payne tariff bill there is also one in the watch schedules.

When the tariff bill was reported the Ways and Means Committee gave everyone to understand there had been real reduction in the tariff on watches. However, the column where the net reduction should have appeared was left blank. The phraseology in the bill relative to duties on watches was, like that concerning coffee and a number of articles, so complicated as to be meaningless to the average person. Watch dealers have now had time to investigate the watch schedules, and report reduction on watches is as much of a myth as "reduction" on other articles claimed by the framers of the Payne bill.

The duties on watches appear to have been revised solely in the interests of the watch trust, the revision in the Payne bill offering no improvement over the present condition, which permits American watch manufacturers to exact larger prices for their goods in the United States than they receive after paying transportation to foreign countries.

Walk into any jewelry store in the United States and ask to be shown the best watch made by the American Waltham Watch Company of Waltham, Mass., and the dealer will display a Waltham watch known as the "River-side Maximus." The price will be \$75, or you may possibly be able to buy the article for \$60. But under no circumstances can you purchase the watch mentioned from a retail dealer for less than \$60, because he is under an "ironclad" agreement with the trust to maintain that as the minimum price.

Seventy-five dollars for a "Riverside Maximus" is \$32.70 more than the same watch sells for in England, Egypt or Australia. This is because the duty on watches is so high the watch combine is in a position to exact practically any price it desires.

Several New York dealers, however, have found a way to beat this game. They are buying American made Waltham and Elgin watches in England, defray all shipping expenses, bring them back to this country duty free (American-made goods being duty free), and are underselling other dealers by one-third. The \$75 "Riverside Maximus," for instance, is being retailed by these particular dealers for \$51.25.

American dealers buying their

watches direct from the factories of the watch trust in the United States are under contract not to retail the Crescent Street nineteen-jewel Waltham movement for less than \$24. The New York dealers who are purchasing American made watches abroad are selling the same watch for \$16.92—\$8 less than any retail dealer can buy it for in the United States.

Under the Elgin National Watch Company contract a retailer cannot sell "240 Raymond Elgin" for less than \$24. The New York dealers buy them abroad and sell them in New York for \$16.39.

These facts were in the possession of the Ways and Means Committee, being contained in the Congressional Record in the speech of Representative Henry D. Rainey of Illinois. Rainey's revelation of how the watch trust, composed of the Elgin, Waltham, Crescent and Keystone companies, extorted exorbitant rates for their product under the protection of high tariff, was unique, inasmuch as it is probably the only tariff speech made on the floor in recent years to which no Republican attempted to answer.

The "reduction" in watch duties, as contained in the Payne bill, are explained by Charles A. Keene, a New York wholesaler of watches and diamonds, in a letter to Representative Rainey.

"The master hand of the watch trust can be plainly discerned in the new tariff bill," says Keene. "However, none but an expert can figure out whether the tariff is to be lowered or higher.

"Only three styles of movements have been affected at all, and as usual the burden falls on the laboring man as follows:

"Watch movements having not more than seven jewels—the old tariff was 35 cents each and 25 ad valorem. The new tariff is to be 70 cents each straight, and this is the way the 'reduction' really comes out: Starting with a watch that actually costs 50 cents to produce in Switzerland, the duty comes out, according to the old way of figuring, 47½ cents each, or 90 per cent. The new way it comes out at 70 cents each or 140 per cent.

"Movements having more than seven jewels and not more than eleven jewels—starting with a movement that costs \$1.25. The old way it comes out at 81½ cents or about 85 per cent; the new way at \$1.35 or about 108 per cent. The fifteen jewel, starting with a movement that actually costs \$1.50; the old way it comes out at \$1.12 or about 75 per cent; the new way \$1.80, or about 125 per cent."

Band of Smugglers Lose \$20,000 in Paris Gowns

NEW YORK, April 1.—Smugglers of feminine finery got a stinging jolt this week when 150 Parisian gowns, lace waists and much other women's apparel and lingerie, valued at \$20,000, said to have been smuggled over on the American liner New York, was seized on the pier by customs inspectors.

The goods were in two trunks which were found on the pier after all the other luggage from New York had been claimed, and are known to customs inspectors as "sleepers." It is supposed that a recent arrest on the American Line pier and the cons-

tant surveillance of a number of employees made it impossible for those interested to get the trunks away.

The goods found in the trunks all came from Paris, and include 100 princess gowns, evening gowns, lace cloaks, silk cloaks, lace waists, gloves, dress goods, trimmings, lingerie, garments, scarfs, embroidered skirts, ponce coats, cloth coats, sets of fur-lace collars, silk corsets and cancos.

The goods have been turned over to the keeper of public stores pending efforts to locate the owner or the persons concerned in the effort to smuggle them in.

SPEEDY TRIAL SURE FOR NEGRO MURDERER

GOVERNOR GILCHRIST ISSUES A SPECIAL PROCLAMATION.

Had Heard Some Talk of Lynching and Appeals to Law-Abiding Citizens.

TALLAHASSEE, April 1.—The following proclamation was issued yesterday morning by Gov. Gilchrist from the executive office:

"In the discharge of his duty Mr. W. M. Langston, sheriff of Leon county, was, on March 19, killed from the effect of a gunshot wound. The negro, Mick Morris, charged with the murder, was arrested in Georgia, March 29, and is now in jail.

"Judge B. H. Palmer, judge of the Third judicial district, has been directed to convene a special term of the circuit court, in and for Leon county, commencing at 10 o'clock a. m., Monday, April 5, for the purpose of trying the said Mick Morris.

"There has been some talk of lynching. All law-abiding citizens will at once recognize the disgrace, if any such course were pursued. The said Mick Morris will be given a prompt, fair and impartial trial. As a prisoner he will be protected. He could not be lynched without the loss of the lives of good, though misguided citizens. Should anyone, through misguided zeal, bring discredit upon the laws of the State, the judiciary and the chief executive, and disgrace upon the county of Leon, and the capital city, they will be punished to the utmost. As a preventive of such, I therefore call upon all law-abiding citizens to assist the sheriff in the execution of the law, and in preventing any unlawful acts.

"In testimony whereof, I have hereunto set my hand and caused the great seal of the State to be affixed at Tallahassee, the capital, this thirteenth day of March, A. D. 1909.

"ALBERT W. GILCHRIST,
By the Governor, attest:
H. CLAY CRAWFORD,
Secretary of State."

MRS. BOYLE HELD FOR ACTION OF GRAND JURY

MERCER, Pa., April 1.—Mrs. Helen Boyle, wife of James H. Boyle, kidnapper of Willie Whittle, was arraigned before Justice of the Peace Thomas McClain at this place yesterday, charged with kidnapping.

She entered a plea of "not guilty" and was held for the action of the grand jury in the sum of \$25,000.

Her husband waived a hearing at Sharon Monday and is held in the jail here on a similar bond.

MUST SERVE TERMS ON PEONAGE CHARGE

NEW ORLEANS, La., April 1.—The United States Circuit Court of Appeals has denied a rehearing in the case of the Government against W. S. Hadian and Robert Gallagher, who were convicted and given a heavy sentence in the Federal court for the Northern District of Florida on the charge of practicing peonage.

The Appellate Court sustained this verdict and now refuses to alter its judgment.

Preliminary on Tuesday.

The preliminary hearing of the case of J. J. and Simon Knighton, charged with having made and passed counterfeit money, will be held in this city on next Tuesday. It is expected that a great many witnesses will be summoned here on this case.

LONE STAR TAKES OLD GLORY'S PLACE

Last of the United States Troops Have Left Cuba. No Cheers Upon Departure.

HAVANA, April 1.—The last emblem of American domination over Cuba disappeared at noon yesterday when the garrison flag at Camp Columbia fluttered down the pole and was replaced a moment later by the lone star, red banner of the Cuban republic. The ceremony attending the transfer of authority took place in the presence of the American garrison of Camp Columbia.

At the direction of Major-General Thomas H. Barry, commanding, Lieutenant Bayard Sneed, of the Twenty-seventh Infantry, advanced to the flagstaff and hauled down the colors. The troops presented arms and the Cuban and American bands played the "Star Spangled Banner." A Cuban lieutenant then raised the Cuban colors and the troops again saluted. The transfer of the camp being thus completed the Cuban troops lined the roadside and presented arms, while the Americans, numbering about 800, in heavy marching order swung past, proceeding to the transports Sumner and McClellan.

The passage of the troops through the city did not attract the least attention and not more than a dozen visitors at the arsenal witnessed the embarkation.

The transport Sumner, under com-

mand of Col. William L. Pitcher, has a total passenger list numbering 837.

The McClellan, under the command of Lieut. Col. Millard F. Waltz, has a total of 231 passengers, which includes a company of engineers, officers and their families and the civil employees of the army. All the animals have been shipped aboard the chartered steamer Progresso, which will proceed for Tampa.

The troops remained on board last night, the transports sailing for Newport News at 10 o'clock today. Maj. Gen. Barry bid his men farewell and then, accompanied by his aide, went aboard the Tampa steamer Mascotte, leaving not a signal representative of the American army on Cuban soil.

The Cuban troops entered into the possession of the quarters of the American officers and men immediately they were vacated, all the buildings having been cleaned and placed in perfect order before the departure of the Americans. The camp will now become the headquarters of the new Cuban army and the name will probably be changed.

Maj. Gen. Barry was given a farewell banquet last night at Hotel Miramar by Gen. Armando Rivas, the acting commander-in-chief of the Cuban army.

Fierce Fight With Flames in Federal Military Prison

LEAVENWORTH, Kan., April 1.—It took 1,200 United States soldiers to maintain order and prevent prisoners from escaping during a fire which destroyed four buildings of the Federal military prison here early today.

All of the 800 prisoners were marched out of their cell houses when it seemed that the whole prison certainly would be destroyed, and were held under heavy military guard until the fire was under control. Then, after some of the cell houses had cooled sufficiently, they were marched back again.

The fire was discovered before midnight by a sentry, who fired his pistol. The fire call was sounded and the entire garrison at Fort Leavenworth turned out. The Thirteenth infantry, armed with rifles, was thrown around the entire prison. The fire, which probably started in the prison tailor shop, gained rapid headway against the prison guard, working with buckets and a small hose. The fire department of Leavenworth answered an emergency call and joined forces with the soldiers in a battle against the flames.

The fire was confined to the central row of buildings and consumed the

industrial department of the prison, including a paint shop, tailor shop, carpenter shop and laundry. The buildings contained many combustibles, and the flames threatened other buildings. The cell houses rapidly became filled with smoke and got suffocatingly hot.

When the fire started there was glee among the prisoners. "Let it burn," they yelled. The water pressure was poor, and as the water sputtered uselessly from the hose, the prisoners laughed and cheered. As the flames neared the cell houses the tone of the prisoners changed, and they screamed "For God's sake take us away," and were battering against the steel bars in terror.

The prisoners were marched from the cell house and held together under guard in a far corner of the enclosure. The new military prison is under construction, and it is not probable the burned buildings will be rebuilt. Maj. Slaven assigns defective wiring as the cause, and places the loss at \$35,000. The burned buildings were erected in 1857 and 1858.

Indian "Sharpshooters" Slay Several Officials

EL PASO, Tex., April 1.—Rebellious at the affronts of the authorities to collect taxes and confiscate property, the Temosachic Indians in the State of Chihuahua broke into open warfare late yesterday, killing several tax officials, terrorizing the town of San

Andreas and cutting the telegraph wires.

The Indians then sent out a general call for reinforcements to resist the enforcement of the collection of taxes and the confiscation of property. Two

DORSEY DIES FROM EFFECTS OF WOUNDS

LINGERED FOR TWO DAYS AFTER DEED WAS COMMITTED.

At Times Man Would Rave As if Someone Were After Him to Do Him Harm.

Postmaster Dorsey of McIntosh, who shot himself and cut his throat in an endeavor to end his life on account of a supposed shortage of \$50 in his accounts, died on Wednesday and was buried from his home yesterday.

The man was evidently demented at times, for during certain periods he would be alarmed and frightened, at the same time claiming that he was being attacked for the purpose of robbery. He would also state at times that two men on white horses had shot him and cut his throat, but the note that he left to his wife, and which was made public, destroyed any theory save that of suicide.

The way the matter was summed up by several of the old gentleman's friends was that he had gotten his affairs tangled, and brooded over them to such an extent that he had become temporarily unbalanced, which accounts for his rash act.

The affairs will be adjusted satisfactorily and everything made all right for the wife, and she will probably be placed in charge of the post-office, provided she cares to take charge of it.

TO HAIR DRESSERS

A Splendid Hair Tonic that Makes Beautiful Hair

Every hair dresser should know about Parisian Sage, the quick-acting hair dressing, that does just what this paper tells you it will do.

Parisian Sage is a most delightful and different hair dressing, a fact that will be recognized the moment it is applied to the scalp. There is not a particle of stickiness in it; it is not greasy; it has a delicate and refined odor, and is a truly invigorating tonic that will make hair grow, if the hair root still shows the least sign of life.

Try a bottle of Parisian Sage. It will brighten up the hair in two days.

Parisian Sage is guaranteed by W. M. Johnson to cure dandruff, stop falling hair and scalp itch in two weeks, or money back. It is particularly in demand by women of refinement, who desire soft, luxuriant hair, that compels admiration. Price 5 cents a large bottle by W. M. Johnson or direct, all charges prepaid, from the American makers, the Giroux Mfg Co., Buffalo, New York.

Making Rapid Progress.

The contractors for the excavations on the Government lot are progressing very rapidly on the contract and expect to have the greater part of the work completed this week. They are now down to a depth of about five feet all over the entire lot, but considerable shaping will have to be done to the "hole" before it will be ready for the contractors to commence their operations.

The Oldest Universities.

The earliest date which any university puts forth is that which Cambridge makes that it was founded about 625. Its continuous history dates, however, from 1109. Paris was founded in 792 and renovated in 1200. Oxford dates back to an academy mentioned as ancient in 822; the schools were founded by King Alfred about 879, and King Henry III. granted the charter in 1248. Bologna dates from 1110. Salamanca was founded in 1239.—Argonaut.

train loads of troops have been sent from Chihuahua to quell the rebellion.

The officers were killed when they tried to confiscate property because of the non-payment of taxes.

Regular troops and rurales were rushed to the scene when the news first reached Chihuahua and since then reinforcements have gone out on special trains.

The Indians cut the telegraph wires and word of the uprising went to the State capital by telephone.

The country is thickly populated with descendants of Temosachic Indians. The ranchers in the region are known as the "sharp shooters of Chihuahua" and they are feared by State officers. The Indians and half-breeds always go armed and are skilled at warfare.

There has always been considerable unrest in the region, especially since the numerous arrests of revolutionists at Casa Grandes. A few years ago, seventy armed Temosachic Indians in open battle stood off a regiment of troops, killing more than 900 men. They were later forced back to a church, which was stormed by artillery before the Indians were subdued.

ROCKEFELLER TIRED OF CONTRIBUTING TO FUND

NEW YORK, April 1.—John D. Rockefeller has notified the steering committee of the West Side Neighborhood House, which he founded and has since supported, that it must find some person or persons who will assume the annual burden of \$25,000 to keep the institution alive, as he is no longer disposed to make this yearly outlay. In consequence there is grave danger of the collapse of one of the most far-reaching charitable organizations on the west side of Manhattan.

Mr. Rockefeller erected the West Side Neighborhood House on a plot of ground he owned at Tenth avenue and Fiftieth street, about ten years ago. It has been estimated that at least 10,000 boys and girls annually avail themselves of its advantages. These include night and day nurseries, a library, kindergartens, gymnasium, tennis and basketball court and bowling alleys.

When Mr. Rockefeller founded the institution it was with the understanding that the Fifth Avenue Baptist church, of which he is a member, was to operate the house and pay all its running expenses. Three years ago the members of the church arrived at the conclusion that this was too great a burden for the church to assume, and they notified Mr. Rockefeller, who has since carried the charge alone.

He has no idea of reclaiming the property, it is explained, but does not feel that he should continue to put up each year \$25,000 with which to operate the settlement in addition to what he had already done.

KING COAL.

While He Lives His Throne Is Fixed In the United States.

The part played by coal in the world's affairs can well be illustrated by assuming the available supply to be suddenly cut off. The huge railroad systems of America would stop at once. So also would the electric power and lighting in all cities and suburbs. Steamship service would cease everywhere. Transit facilities would be dead. Factories, manufacturing and shops would close down. Vast industries like steel, iron, copper, etc., would cease. Armies of laborers would be thrown out of work. Mails, schools, the navy, newspapers, foreign and internal trade—all would cease to exist. The trilogy governing commercial advance, heat, light and power, except a negligible amount of water, oil, etc., would be annihilated—all this until some other form of power could be developed. The possibility of such a cataclysm is not imminent, for coal will reign for some time yet and is destined to become a power whose capabilities have as yet been comparatively felt only more faintly than would a feather on the hide of an elephant.

The world needs coal. The United States has that coal to deliver. It will be wholly natural that so potent a necessity will make for continued peace and understanding among the powers of the world.

The coal mines of Europe are sunk about 3,000 feet deep. Coal is still being quarried on the banks of the Ohio, and the mines of Europe are nearing the limit of commercial possibility. The manufacturing supremacy of the old world is passing to the new. Coal is king, and while he lives his throne is fixed forever in the United States.—Metropolitan Magazine.

BOUNDARY STREET IS NOW BEING PAVED

WORK OF GRADING WAS FINISHED
ON THURSDAY AT NOON.

Will Commence Putting on the Paving
Material Today—Trees Are
Being Removed.

The work of paving East Boundary street, from East Main to Pleasant, will be commenced this morning and C. M. Dell, superintendent of the street department, says he hopes to complete the work within about two weeks.

For several days a force of men have been engaged in grading the thoroughfare and are now removing the trees and other obstructions from along the line of sidewalk, which makes an improved appearance since it has been opened up.

A cement gutter will be placed along the thoroughfare on both the north and south sides and the material to be used is gravel, clay and sand, the road roller being used to get the pressure on the material to make it compact.

When finished this street will afford a great convenience to all parties coming from that section of the city, and will prove especially advantageous to the people of the North Gainesville section.

Pedestrians, bicyclists and vehicles can now traverse this route at all seasons and not be compelled to go through mud and water, as has been the condition on Pleasant street.

J. J. FINLEY CHAPTER.

Delegates to State Convention at St.
Augustine Elected.

An interesting meeting of the J. J. Finley Chapter, U. D. C., was held Thursday afternoon at the residence of Mrs. Thornton Stringfellow. In spite of the threatening aspect of the weather there was quite a large number present. Credentials were presented from four new members.

After the transaction of the routine business the historical program was taken up.

Delegates to the State convention to be held in St. Augustine, May 5, were elected as follows: Mrs. J. L. Kelley, Mrs. J. W. Tench, Mrs. G. K. Broome and Mrs. J. L. Medlin; alternates, Mrs. J. W. Patton, Mrs. A. R. Harper, Mrs. F. P. Henderson and Miss Gertrude Moore.

The Chapter enjoyed a social hour at the close of the meeting, during which time delicious refreshments were served by the hostess.

Death of Col. B. A. Coachman.

Col. Benjamin Allston Coachman died last Thursday at his home in Jacksonville in his eighty-eighth year. He was born near Georgetown, S. C., June 27, 1821.

Col. Coachman was a resident of Bronson for many years, moving to Jacksonville twenty-one years ago. He had led an active life and was well-known throughout the State.

He leaves three daughters, Mrs. O. C. Rhodes, Mrs. C. B. Rogers and Mrs. J. K. Munterlyn, and three sons, James Coachman and W. F. Coachman of Jacksonville, and R. A. Coachman of Miami, to mourn his loss.

The funeral services were held in the Church of the Good Shepherd, Riverside, at noon on Friday, and Mrs. C. B. Rogers and James Coachman accompanied the body of their father to Bronson, where it was interred early Saturday morning in the old cemetery, by the side of his wife.—Times-Democrat.

The deceased was a former resident of this city and was well-known by many of the citizens here.

Moved to Country.

Tax Assessor Colson and his estimable family have removed from East Gainesville to their country home on Newman's Lake, where they will hereafter reside. Mr. Colson says that he has always enjoyed country life, and as it is only a drive of a few minutes from his home to the city, he can make the trip every day and be at home at night to enjoy the country air and pleasures of a farm.

BALL GAME TO BE NEXT WEDNESDAY

SEVERAL OLD OAK HALLS WILL
FIGURE IN THE CONTEST.

"Pat" Graham and "Babe" Denton
Will Be There to Do Some
Old-Fashion Stabbing.

So much interest has centered in the baseball contest between the two local clubs that they have decided to postpone the game until next Wednesday afternoon.

This act was due to the fact that the teams are so evenly matched that each are afraid to go up against the other and want more time in which to get in practice work, and Captain Graham of the old Oak Hall squad decided it would be best to have the contest on this date.

For the past week they have both been hard at work practicing, and each side is confident of victory, but as they are evenly matched there is doubt about the final result.

"Pat" Graham, the sturdy little shortstop of the Oak Halls, will be in his old position, digging the "hot" ones out of the sand and pulling down line drives. "Babe" Denton, the fleet-footed out-gardener of last year's "pros," will take care of left field, and it will be pleasing to watch the "popular kid" take 'em in. While neither of these two lads claim they will put the sphere over the boards, they will sting it often and hard enough to keep their team ahead of the college boys.

Others of the Oak Hall aggregation will be among the bunch, and they go up against one of the strongest college teams ever put out by the University. "Swatter" Mitchell, of last year's Oak Halls, will be on the job both with the willow and in the field.

TO INLAND AUSTRALIA FOR YOUR HEALTH

ROUND TRIP ONLY \$1.00.

If you are a catarrh, asthma or hay fever sufferer, what would you say if the above offer was made to you?

How would you like to go to the mountainous forests of pine and eucalyptus, where catarrh and asthma do not exist? Where people do not have to hawk every morning, to spit out the lump of disgusting mucus? Where the healing, antiseptic balsams purify the air and kill all germs?

You can't go to this ideal spot, of course. You haven't time, and possibly not money. But you can, for \$1, bring the healing balsamic air from these forests right to your home; you can kill the germs of catarrh at home, without losing a minute's time.

Ask J. W. McCollum & Co. about Hyemel, the Australian dry air cure. PRESIDENT HULLEY.

Dr. William Quay Rossels, pastor of the Fifth Baptist church of Philadelphia, a preacher and lecturer of very wide reputation, recently visited DeLand and Stetson University. In the Baptist Commonwealth of his home city he wrote as follows concerning the work of the University and the leadership of President Lincoln Hulley in the educational affairs of Florida:

"A very few years from now will see Stetson University among the leading educational institutions of America. It is in a true sense a great school.

"Dr. Lincoln Hulley is the master builder. Upon all hands are heard testimonials of his great influence for good. He conducts a vesper service every Sunday afternoon in the auditorium. His sermons are heard by audiences that fill the great room. The tourists attend in large numbers. By means of these services and the strong sermons which accompany them, President Hulley is ministering to the higher life of the community, and, through the students, of the entire State in a way that the discerning greatly appreciate. He is a tireless worker, and is today one of the very foremost leaders of our Baptist hosts.

"A new boy's dormitory is now in course of erection to provide for the constantly increasing attendance. The teaching corps is large and efficient. The student body gives the impression of being under the most perfect discipline. The good results of Dr. Hulley's masterful administration are everywhere apparent."

The editor of The Sun has gone to Tallahassee to take up his duties as State Senator from Alachua county, and he would be pleased to have his brethren of the press favor him with at least an occasional copy of their papers, so he may keep in touch with them during his absence. He will also be pleased to hear from any of his constituents relative to any matter of legislation in which they may take an interest.

An old writer has said that "it is worth a thousand pounds a year to have the habit of looking upon the bright side of things." If a money estimate is to be put upon optimism that statement well expresses its value. But in truth there is an enjoyment, a hopeful courage, a peaceful contentment, and a host of other advantages in looking upon the bright side that can never find their equivalent in money.

The tariff bill now before Congress will likely have a hard road to travel. The interests which think themselves injured by the proposed lower duties will be sure to fight as strenuously as they always do under such circumstances, and then, too, there is certain to be the usual struggle between the advocates of the consumer and those of the producer.

It is not how many good things in this life which one has that counts, but the use he makes of them. He may heap up only to gratify his selfishness or he may gather them that he may enjoy them with others.

The incipient rebellion in Cuba was promptly crushed. That counts one in favor of Cuban independence.

VANCE AND THE TARIFF.

Senator Vance of North Carolina was one of the greatest men the South ever produced, and during his public life there was more than one movement among some manufacturers to go over to the Republicans upon the protection issue. In one of his last campaigns, when Senator Vance reached a county in which there were many cotton factories, he was approached by a Democratic county leader, who said in substance:

"We have a very close fight in our county this year. The cotton mill people, most of them, believe in protection but will vote with us on State issues. I have come to request you not to discuss the tariff question here today. It might drive off votes."

The great war Governor, who was always more noted for fortiter in re than for suaviter in modo, replied, substantially saying: "If most of your cotton mill people believe in protection, my duty is plain. I must speak on the tariff and give them the truth that will destroy the sophistry by which they have been deceived. I would not be true to my duty to them, to myself, or to the party if I were to dodge here where preaching the truth seems to be needed."

The local leader couldn't dissuade him from his purpose. He told his friends: "Governor Vance will not listen to reason and we will lose the county. He is determined to speak on the tariff." When the speech began, there were not a few among the party leaders who were depressed. All the cotton mill owners and employers, disaffected on the tariff, were out. The Governor plunged at once into his subject. He told his audience that news had reached him that some of them were inclined to favor protection—the doctrine of the robber barons—"that he may take who has the power, and he may keep who can"—and he proceeded to make the greatest tariff speech in North Carolina. He carried his hearers with him, too, as well as farmers and business and professional men. Before he finished he had them laughing as he recited "Mary Had a Little Lamb" with variations, showing how protection robbed, applauding his declarations for equality of opportunity and no taxation for private benefit.

Later Governor Vance finished that poem and read it in the Senate. It was received with shouts of laughter, even Republican Senators leaning back in their seats and giving unrestrained sway to their mirth. Here is the poem:

"Our Mary had a little lamb,
Her heart was most intent,
To make its wool beyond its worth,
Bring 56 per cent.

"A pauper girl across the sea
Had one small lamb also,
Whose wool for less than half that sum
She'd willingly let go.

"Another girl who had no sheep,
No stockings—wool nor flax—
But money enough just for to buy
A pair without the tax

"Went to the pauper girl to get
Some wool to shield her feet,
And make her stockings, not of flax,
But out of wool complete.

"When Mary saw the girl's design
She straight began to swear
She'd make her buy both wool and tax
Or let one leg go bare.

"And so she cried: 'Protect, Reform!
Let pauper wool in free!
If it will keep her legs both warm
What will encourage me?"

"So it was done, and people said
Where'er that poor girl went,
One leg was warm with wool and one
With 56 per cent.

"Now praise to Mary and her lamb,
Who did the scheme invent,
To clothe one-half a girl in wool
And one-half in per cent.

"All honor, too, to Mary's friend,
And all protective acts,
That clothe the rich in real wool
And wrap the poor in tax."

Married life would be happier if people just beginning it would, in many cases, be more considerate of each other. Sometimes the young wife commences with being a domestic tyrant, and while at first the tyranny may be good humoredly borne it soon becomes distasteful and unpleasantness follows. And sometimes the young husband is in fault in being too "lordly" and in interfering with the legitimate sphere of the wife's domestic life. Loving co-operation and consideration will prevent friction and make for happiness.

CURRENT COMMENT.

The Philadelphia Record says: "While intermarriage between races so radically antithetical as the Anglo-Saxon and the Japanese ought not to be encouraged, the people of San Francisco seem to be unduly exercised over the proposed union of a California girl with an Oriental. She herself has properly characterized the uproar of the protestants: 'It is but the cry of unthinking persons who in a week will have forgot that I existed in their mad ambition to clamor against something else.'"

The Norfolk Virginian-Pilot says: "It is to be hoped that Mr. Taft is not to establish a new record as the peripatetic President. He is credited with six absences from Washington during the three weeks which have elapsed since his inauguration, and we have intimation of several summer tours through the different sections and a trip to Alaska later on. We would not impose too rigid a rule for home-staying but absenteeism from the seat of government is a habit in which officials may easily over-indulge. We have one Wandering Willie at large in the country now, making his counsel and oratory cheap by their commonness; it would be best that the President shun the example."

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

NEWS FROM ALL PARTS OF FLORIDA

Work on Ocala's Government building is progressing rapidly.

The Florida Postmasters' Association will hold their annual convention in Jacksonville on April 13, 14 and 15.

Negotiations are on foot for purchasing the Masonic Temple in Tampa and erecting a handsome up-to-date \$200,000 brick hotel covering a half block.

Preliminary steps have been taken by a number of interested persons resident in and near Fort Pierce to organize a branch of the Presbyterian Church in that town.

A good-will reception was tendered Hon. James E. Alexander, Frank W. Sams and Macon Thornton at DeLand Thursday evening before their departure for the legislative session.

Illinois and Iowa men have purchased a large tract of land in Orange county and expect to bring a large number of settlers to the State from the Northwest and sell them small truck farms on easy terms.

Reuben Millen brought a head of cabbage to The Herald office that is quite a freak in the vegetable line. The cabbage went to seed before heading, and twenty-four distinct heads were formed upon the stem. If any other section can grow twenty-four heads of cabbage upon one stem, let them come forward and take the championship belt from Mr. Millen.—Sanford Herald.

According to the estimates received at Fort Barrancas more than a half million dollars are to be expended in building, or completing the seawall at Fort Pickens, across the bay, and in addition nearly \$200,000 will be expended in appropriations for wharves, walks, roads, new buildings, etc., at the two forts near Pensacola. The quartermaster department, which has charge of all improvement work, has received the allotments made by the War Department for all forts and Pensacola has received a larger amount for the continuation of present work and for new work than any other fortification in the South.

REV. FLEMING HONORED.

Degree of Doctor of Divinity Has Been Conferred Upon Him.

(Contributed.)

Rev. H. M. Fleming, pastor of Mt. Moriah Baptist church of this city, was awarded with a beautifully engraved diploma from Princeton (Ind.) University, conferring on him the degree of Doctor of Divinity. His diploma was presented at the above-named church, in the presence of more than 2,000 spectators, by Rev. J. S. Lewis, D. D., Ph. D., examining superintendent of the university with headquarters at Jacksonville.

Addresses telling of the fitness, moral worth and theological ability of Elder Fleming to receive the distinguished title were ably delivered by the following-named ministers: Revs. H. K. Hill, J. H. Matthews, D. W. Rowe, W. West, J. R. Harris, S. A. Huger, T. H. Walker, D. D., L. H. Hawkin, Rev. Gardner, F. A. Williams, H. P. Sauton, J. R. Feamster, Dr. R. B. Ayer, and Prof. Otson, all of Gainesville; Rev. F. Dansey, D. D., of Archer, Fla.; Rev. J. H. Mays, D. D., of Alachua, Fla.; Rev. J. B. Anderson, Archer, Fla.; Rev. R. W. Lawrence, Archer, Fla.; Rev. A. Means, McIntosh, Fla.

Music rendered in high-talented order by the choirs of the following-named churches: Mt. Moriah Baptist, Friendship Baptist, Mt. Pleasant M. E. and Bethel A. M. E., directed by Prof. D. S. Days.

Prof. T. D. DeBose, of Union Academy, this city, delivered the principal address, which was highly enjoyed by all present, and acknowledged to be an eloquent, logical, and oratorical masterpiece.

Rev. G. P. McKinney, D. D., ex-president of the Florida Institute at Live Oak, Fla., was master of ceremonies.

Rev. Wm. Beckem, D. D., of Nashville, Tenn., general secretary of the National Baptist Publishing Board, was present and but for the lateness of the hour declined to further tax the good patience of the large audience.

Friends and members of Mt. Moriah Baptist church showed a faint token of their appreciation to all concerned for the great honor done their pastor and friend by the presentation of a purse to Rev. Dr. Fleming containing \$45.33.

The occasion was the first public demonstration of its kind ever witnessed in this city. The whole congregation proved orderly from beginning to end, only at times, when the speakers referred commendatory to the fitness of Dr. Fleming, then came an outburst of deafening applause. Dr. Lewis' presentation address was both logical and humorous. Rev. Fleming, having been thus honored, used choice, spicy words of thanks and appreciation to all concerned.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. J. W. The Penalty of Kindness.

The man who had about three times as much as he could carry felt in his pocket for a nickel. The conductor waited patiently while he extracted a package of cigarette papers, four matches, a little wad of string and a corkscrew.

"Nothing doing," said the sozzled one and immediately lost interest in the matter.

"Come, get off," said the conductor. "Here: it's Jefferson avenue. I can't let you go any farther without paying."

Just then a fat man leaned over and gave the conductor a nickel. "Let him ride," he said, and the "con" rang up the fare and passed on.

When the car reached the end of the line the inebriated gentleman was still dozing.

"Why don't you get off?" roared the "con," shaking him. "Where do you want to go?"

The passenger opened one watery eye sleepily.

"Where do I go?" he exclaimed. "Why, Jefferson avenue?"—St. Louis Republic.

Poetic Justice.

A certain couple in a New England village, each the parent of six children, had meted out to them a kind of poetic justice in which they failed to see the poetry.

The woman, a widow, pleading that she had no home and was therefore unable to care for her children, induced the local authorities to admit them to an orphan asylum. The man, a widower, pleading he had no housekeeper and therefore no one to care for his children, induced the authorities to admit his six also. Thereupon, being freed from all incumbrances, these two married.

All went well for a few months, when the authorities, learning of the situation, promptly dispatched the twelve children back to their parents, and the woman no longer able to represent herself as homeless or the man as without a housekeeper, they were forced to receive them.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints causing rheumatism. J. W. McCollum & Co.

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

EARTHQUAKES OF OLD

Large Ideas of the Ancients as to Their Causes.

WARNING SIGNS OF SHOCKS.

Says They Were Shown in the Clouds and Water and by Animals—The Two Mountains That Rushed Together and Then Receded.

We search history to find to what the ancients attributed earthquakes and we find that the Babylonians believed that all occurrences of the kind were due to the influence of the stars, especially of the three to which ascribed thunder—namely, Saturn, Jupiter and Mars. The seers of old day believed that these disturbances were caused by the stars moving with the sun or being in conjunction with it, more particularly when stars were in the quartile aspect. History chronicles the report concerning one Anaximander, a Milesian, who turned the Lacedaemonians to believe of their city and houses. And he had it that the city was soon afterward destroyed.

Pliny, who wrote his natural history A. D. 77, conceived that earthquakes were caused by the winds, as the earth never trembles except when the sea is quite calm and when the heavens are so tranquil that the clouds cannot maintain their flight, all the air which should support them being withdrawn. Nor does it ever happen until after great winds, the gusts being pent up, as it were, in the fissures and concealed hollows.

Many scientists have observed that great convulsions of nature are likely to be preceded by calms; also that birds and animals generally exhibit certain premonitions of the event, facts which the wise men of ancient days noted and accounted for in their different ways.

Pliny says: "When an earthquake occurs there is often sound without any motion. When there is motion it is tremulous and vibratory. The clefts of the earth sometimes remain, displaying what has been swallowed up, sometimes concealing it, the mouth being closed and the soil brought over it, the city being, as it were, engulfed. Devoured. Maritime districts are more especially subject to shocks. Nor are mountainous districts exempt. I have found the Alps and the Apennines frequently shaken by them. The shocks happen more frequently in the autumn and the spring. They also happen more frequently in the night than in the day. The greatest shocks are in the morning and the evening, but they often take place at daybreak. They also take place during eclipses of the moon, because at that time storms are lulled. They are most frequent when great heat succeeds to showers or showers succeed to great heat."

Pliny further says: "There is no doubt that earthquakes are felt by persons on shipboard. There are many signs for the mariner beforehand, however. The timbers of the vessel creak. The birds that settle on the vessel are not without their alarms. There is also a sign in the heavens, for when a shock is near at hand, either in the daytime or a little after sunset, a cloud is stretched out in the clear sky like a long, thin line. The water in wells is more turbid than usual, and it emits a disagreeable odor."

In describing the various kinds of shocks and expanding on his investigations on the subject Pliny remarks that "arched buildings are the safest; also the angles of walls and walls made of bricks suffer least. The earth movement that resembles the rolling of waves is the most dangerous, or when the motion is impelled in one direction. The tremors cease when the vapors have burst forth, but if there be no escape of vapor of any kind then the tremors may continue for forty days. They have been known to continue for two years."

The historian records the greatest "prodigy of the earth" as having occurred in the district of Mutina during the consulship of Lucius Martius and Sextus Julius, when "two mountains rushed together, falling upon each other with a very loud crash and then receding, while in the daytime smoke and vapor issued from them." Pliny says the wonder was witnessed by "a great crowd of Roman knights and travelers along the Aemilian way."

The same writer says: "The greatest earthquake which occurred in our memory was in the reign of Tiberius, by which twelve cities of Asia were laid prostrate in one night. During the Punic war we had accounts of fifty-seven earthquakes in one year. Nor is it an evil merely consisting in the danger which is produced by the motion; it is an equal or greater evil when it is considered as a prodigy. The city of Rome never experienced a shock that was not the forerunner of some great calamity."

Pliny, of course, takes a good many of his accounts from Aristotle, but his references to events are confirmed by other writers. Herodotus describes a

NATURE TELLS YOU

As Many a Gainesville Reader Knows Two Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action; Any urinary trouble tells of kidney ills.

Doan's Kidney Pills cure all kidney ills.

People in this vicinity testify to this.

Joe Eckert, Thompson street, Starke, Fla., says: "I am very glad to recommend Doan's Kidney Pills as they proved of great benefit to me. The passages of the kidney secretions were irregular and when the secretions were allowed to stand they deposited a sediment. My back ached intensely and was very lame and sore, making it hard for me to stoop or lift. I could not rest well and mornings upon arising I was tired and worn out. I at length heard of Doan's Kidney Pills and deciding to give them a trial, I procured a box. This remedy effected a complete cure. The backaches and the lameness disappeared and my kidneys became normal."

Remember the name—Doan's—and take no other.

great disturbance in his day, when "the sea came beyond Memphis, as far as the mountains of Ethiopia, and also from the plains of Arabia. The sea also surrounded Ilum and the whole of Teuthrania and covered the plain through which the Meander flows." Pliny makes actual mention of one of the Aeolian islands having "emerged from the sea." It was a matter of common belief among the scientists of Pliny's day that Sicily was torn from Italy by such a disturbance.—New York World.

During the spring everyone would be benefited by taking Foley's Kidney Remedy. It furnishes a needed tonic to the kidneys after the extra strain of winter, and it purifies the blood to eliminate the impurities from it. Foley's Kidney Remedy imparts new life and vigor. Couldn't Fool Him.

A Morris River oysterman attended a band contest one winter night in Morris River. The contestants blew into their great horns as if to burst their lungs. The drummers banged their drums with might and main. Checks were red and round like apples. Eyes almost started from their sockets. The oysterman enjoyed it all. But his attention was distracted by a deaf old gentleman who in the planissimo passages put a large silver ear trumpet to his ear. Whenever he did this the oysterman sneered. And at last his honest hatred of anything approaching sham overcame the man's reserve. He elbowed his way to the deaf old gentleman and said: "Look here, that don't go here. Everybody knows you can't play that with your ear. Put it away, mister. You can't fool us."—Los Angeles Times

FOR CITY MARSHAL.

To the Voters of the City of Gainesville:

I am a candidate for City Marshal for re-election on April 13. I have served the people faithfully and efficiently, night and day, and my record is open for inspection.

If my service during the past year has been satisfactory I ask the support and vote of each and every citizen who is qualified. I can only promise the same service as I have endeavored to give in the past.

Yours for order,
BEN T. ARNOW.

I take this method of informing the public that I am a candidate for City Marshal at the election to be held on April 13, 1909. I respectfully solicit the support of all voters, irrespective of party affiliation, and promise to faithfully and impartially discharge the duties of the office should I be elected. Respectfully,
CHAS. C. WARREN.

FOR TAX ASSESSOR.

To the Voters of the City of Gainesville:

I respectfully announce myself a candidate for City Tax Assessor for the year 1909. Having been Tax Assessor for four years, I am fully prepared to fill the office, as my record will show, the city assessment having been increased in that time from a little over \$600,000 to over \$1,000,000. I was prevented from running for this office last year on account of sickness, and now respectfully solicit your votes.
W. M. BRADFORD.

To the Voters of Gainesville:

I hereby announce that I am a candidate for re-election to the office of City Tax Assessor for the year 1909, in the election to be held on April 13th, and most earnestly request you all to give me your vote and support for the position.

Thanking you for your past endorsement, I remain, Yours very truly,
B. R. COLSON.

BIDS WANTED.

The Board of County Commissioners will receive, at their meeting in April, bids for a system of sewerage to be constructed in the county jail, parties bidding to submit suitable plans and specifications and price of same.

The Board reserves the right to refuse any or all bids, and to accept such bid and such plans and specifications as they may think best. All to be connected with the city sewer.

Done by order of Board this 3rd day of March, 1909.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.

BOTH CHARM THE PEOPLE.

A Strong Sermon on the Attonement And Fine Music Was Program.

The congregation continues to grow at the Baptist church. Dr. Martin proves himself strong and safe. He believes light and frothy evangelism the curse of the age. His slogan is to the "Old Book and the Old Gospel." His wit, logic and pathos all point to Christ, the sinner's only hope. His reasonings are logical and his climax is often dramatic, as he drives home man's lost condition through sin and his hope of escape through Jesus Christ.

Mr. and Mrs. Schofield have already won the hearts of the people by their sweet songs. In this special line they surpass anything this city has ever had. It is worth walking miles to hear Mrs. Schofield sing "His Eye is on the Sparrow." Mr. Schofield is a leader in the great Moody school, Chicago, heading a chorus of hundreds of voices there. God seems to have specially called these great singers for service in song. You are missing your greatest feast if you are not hearing them. They sang for the public school yesterday morning and the children went wild for more.

This morning at 8:30 they will sing at the University chapel.

The entire city are not only invited to attend all services, which are 3:30 p. m. and 7:30 p. m., but everyone who can sing is invited to join the chorus choir.

The ladies of the Woman's Guild of Holy Trinity church are requested to meet this afternoon at 3 o'clock at the church.

Just received thirty-five cases of Morris & Co's. canned meats—corned beef, roast beef, chipped beef in glass, tripe, corned beef hash, potted tongue and ham. Saunders & Earle.

Foley's Honey and Tar is a safeguard against serious results from spring colds, which inflame the lungs and develop into pneumonia. Avoid counterfeits by insisting upon having the genuine Foley's Honey and Tar, which contains no harmful drugs. J. W. McCollum & Co.

Congressman Frank Clark and wife have gone to Washington and will be absent in the National Capital for some time. While in St. Augustine attending the Press Association meeting, Congressman Clark received several very urgent telegrams which required his presence at once and they departed for Washington.

The Banana House is now full of bananas, apples and oranges, and we are offering the best bananas at only 15 cents dozen. The proprietor, N. Francisco, has this week paid out \$200.50 for the special privilege of serving his army of customers at their homes, and will hereafter run a wagon in every section of the city. If you haven't a 'phone you can call the wagon and have your wants satisfied right at your own door. N. Francisco, the original banana man.
